Spatenstich fürs vierte Werk

Montagehalle mit 6.300 qm soll spätestens im Frühsommer 2021 fertig sein

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses, income, and transfers between accounts. The document provides a detailed list of items that should be tracked, such as bank statements, credit card receipts, and invoices. It also outlines the best practices for organizing these records, such as using a consistent naming convention and backing up data regularly.

The second part of the document focuses on the reconciliation process. It explains how to compare the internal records with the bank statements to identify any discrepancies. This step is crucial for catching errors early and ensuring that the books are balanced. The document provides a step-by-step guide to performing a reconciliation, including how to handle common issues like timing differences and unrecorded transactions. It also includes a checklist to ensure that all necessary steps are followed.

The final part of the document discusses the importance of regular reviews and audits. It suggests that businesses should conduct periodic reviews of their financial records to identify trends, assess performance, and ensure compliance with tax regulations. The document provides a framework for conducting these reviews, including key areas to focus on and questions to ask. It also emphasizes the importance of seeking professional advice when needed, such as from an accountant or tax advisor.

Pöttinger investiert 25 Mio. Euro in das neue Werk in St. Georgen, Österreich.

Pöttinger gab Ende April den Startschuss für den Bau eines neuen Werks in St. Georgen, fünf Kilometer entfernt von der Konzernzentrale Grieskirchen, Österreich. Mit einer Investitionssumme von 25 Mio. Euro wird in der ersten Bauetappe eine Montagehalle mit 6.300 qm errichtet. Spätestens im Frühsommer 2021 soll dort die Montage von Impress Rundballenpressen und Top 4-Kreisel-Schwadern starten.
